## SEASIDE BUILDING SECTIONS

Attention is drawn to the advertisement in another column announcing the auction sale on the 18th inst. of seaside building sections at Koitiata, near the mouth of the Turakina River. The sections are within the Domain of some 170 acres, which is vested in the Rangitikei County Council and special legislation was obtained to enable sites to be leased for building purposes. The Turakina Beach is the nearest point of approach to the sea coast for the Marton and surrounding districts, and residents who desire to erect a seaside cottage should not miss this opportunity of securing at a small annual cost a suitable site for the purpose.
